

Risk Classification							
Note: Risk = Likelihood x Severity			Severity				The risk of this Range is assessed as... 2.25
Likelihood	4	4	8	12	16		
	3	3	6	9	12		
	2	2	4	6	8		
	1	1	2	3	4		

Target Centres	Hazards	Consequences	Who is at risk	Severity	Like-lihood	Risk	Control Measure	Risk with Control Measure
Outdoor Ranges	Symptomatic: The Archer has Symptoms of Covid-19 or other infectious disease	Risk of Infection to other people	All	3	4	12	Archers or Family members of the Archer MUST refrain from coming to the Archery Range. Government Guidance Must be Followed. Archer MUST refrain from coming to the Archery Range in line with Government guidance.	3
Outdoor Ranges	Family or Household member is symptomatic with Covid-19 but Archer is well.	Risk of Infection to other people	All	3	4	12	Archer MUST refrain from coming to the Archery Range and Facilities in line with Government guidance.	3
Outdoor Ranges	"Actions" and "Omissions of actions" to prevent infection spread.	Risk of Infection	Archers and Premises Staff	3	4	12	"Actions" and "Omissions of actions" are the responsibility of the Archery Club / Provider once inside the Archery Range. Safe Systems adopted by the Archery Provider MUST be managed at all times. Club volunteers must be given authority to advise / guide archers to enable safe systems to work.	3
Outdoor Ranges	Poor Control Measures to control infection measures.	Risk of Infection	Archers and Premises Staff	3	3	9	Liaison with Premises provider is essential for the control measures to be agreed. Government guidance and local guidance must be adhered to at all times. Personnel responsible for safety of the Archery Range must ensure that systems operated by the premises provider are within Government Guidelines.	3
Outdoor Ranges	Becoming ill whilst on the Archery Range.	Infection may be passed to another Archer and their families etc	All	3	3	9	Should you become ill whilst you are at the Archery Range, you MUST inform someone that you do so and immediately leave the Range and go home. Please arrange urgent support should you find yourself seriously sick whilst you are at the range.	3
Outdoor Ranges	Cross Contamination between bosses	Risk of Infection to other people	All	2	2	4	Bosses are to be placed on 3.66 metre tram lines travelling up the Archery Range. This provides a safe space between Bosses and Archers when either solitary shooting or family units when using two adjacent bosses placed either side of the same tram line.	2
Outdoor Ranges	Horizontal and Vertical Surfaces (In set up areas and on Archery Range). Range hazard zones (high touch areas).	Risk of Infection	All	2	2	4	To Avoid unnecessary viral contact avoid horizontal surfaces at all times. Reduce fomites in communal areas. Target faces and target pins to be brought to range by user and taken away from Range once used. Bosses should be sprayed down with disinfectant spray between sessions.	2
Outdoor Ranges	Horizontal and Vertical Surfaces Toilet Facilities	Risk of Infection to other people	All	2	2	4	Toilet Facilities are out of bounds. Toilet Facilities may be used in emergencies only. However, the person using the toilet MUST disinfect the facility, their hands and their equipment after use.	2
Outdoor Ranges	Management of the flow of people (Archers and Guests) on the Range.	Confined Spaces and Overcrowding	Archers and Premises Staff	2	2	4	One way system not possible so frequent cleaning of premises - all areas disinfected frequently with last person in ensuring a final clean down is done.	3
Outdoor Ranges	Archers and Guests unaware of where to walk, stand or wait, on the Range.	Confined Spaces and Overcrowding	Archers and Premises Staff	2	2	4	No gathering inside club building - signage produced to this effect.	2
Outdoor Ranges	Contaminated equipment, luggage, clothing etc.	Cross Contamination	Archers and Premises Staff	2	2	4	Personal Archery Equipment should, where possible, be assembled away from the archery range. Archers should be encouraged to set up their equipment away from the Range; bring set up, or partially set up equipment on to the Range in a safe manner.	2
Outdoor Ranges	Archers unaware of when the Range is fully booked or has free spaces.	Overcrowding and Cross Contamination	Archers and Premises Staff	2	2	4	Advance Booking Systems MUST be Operated. To avoid overcrowding a booking system must be provided by the Archery Provider. If more than one session is provided within the premises, an overlap gap must be provided to avoid unnecessary contact between archers.	2
Outdoor Ranges	Cross contamination between people socialising at or near Waiting Line, or Social Areas.	Cross Contamination	Archers and Premises Staff	2	2	4	The use of Face Coverings must be adopted prior to and immediately following shooting the bow. Government guidelines must be followed. To prevent the possible spread of the virus from an unsuspectingly infected person, the use of face coverings must be adopted. Psychological, and medical reasons may prevent the use of Face Coverings and sufficient provision of support must be adopted in these cases.	2
Outdoor Ranges	Too many people on the shooting line.	Overcrowding and Cross Contamination	Archers	2	2	4	Maximum of Four archers per Boss from same household or social bubble. The distance between Archers MUST be Monitored.	2
Outdoor Ranges	Cross contamination from Faces and Target Pins	Risk of Infection to other people	All	2	2	4	Archers MUST bring their own Faces and Target Pins to the Range. (Target Faces and Pin Packs can be purchased online from Archery Retailers. Ask for JVD or Belter Pinch Target Pins, 80cm or 120cm faces). All equipment required for shooting, including Faces and Target Pins must be brought to the Range by the Archer/s using them. There will be no Faces or Target Pins available at the Range already situated on Bosses.	2
Outdoor Ranges	The normal hazards of Archery	Body injury	Archers and Spectators	2	2	4	The Normal Rules of Shooting will be applied.	2
Outdoor Ranges	Moving bosses	Body injury, muscle strain, splinters. Cross Contamination.	All	2	2	4	Face Coverings, Working or Cloth gloves are to be utilised when moving bosses. Gloves help prevent splinter penetration and support reduction in cross contamination.	2

Outdoor Ranges	Equipment left behind by Archers who have left the Range	Cross contamination from Target Pins and Faces.	All	2	2	4	Any and All Target Faces, Pins and associated Boss associated equipment left by Archers will be removed and discarded to waste	2
Outdoor Ranges	Eating and Drinking on the Archery Range.	Risk of Infection to other people	All	2	2	4	Eating and Drinking on the Archery Range should be avoided at all times. However, if Archers wish to bring drinking bottles and flasks, these should be sealable / non-spill design. Archers should avoid the sharing of bottles and flasks.	2
Outdoor Ranges	Contamination from Target Pins	Risk of Infection to other people	All	2	2	4	JVD or other Pinch & Pull Target Pins to be used.	2
Outdoor Ranges	Contamination from Archery Equipment	Risk of Infection to other people	All	2	2	4	Own equipment to be used. Archers MUST bring their own Faces and Target Pins to the Range. (Target Faces and Pin Packs can be purchased online from Archery Retailers. Ask for JVD or Better Pinch Target Pins, 80cm or 120cm faces).	2
Outdoor Ranges	Sharing of Equipment	Risk of Infection to other people	All	2	2	4	Do not Share Equipment	2
Outdoor Ranges	Contamination from Hands	Risk of Infection to other people	All	2	2	4	Material gloves to be used when placing faces, pushing or pulling target pins, pulling arrows and clearing faces and pins from boss. Sanitizer stations, washing facilities and gloves should all be considered. Remember - Hands (washed and clean), Face (covered when not shooting and close to other people), Space (remain aware of your distance from other people).	2
Outdoor Ranges	Failing to adhere to Risk Assessment	Risk of Infection to other people	All	2	2	4	Adherence with this Risk Assessment. It is a duty of all people to adhere to the guidance of each risk assessment. It is a requirement that Health and Safety is Managed at each premises.	2

Risk Classification and Action		
Designation	Classification	Action
5 to 16	Unacceptable	This situation is not tolerable. Shooting shall not start or be continued until the risk has been reduced.
3 to 4	Tolerable	Shooting can continue as long as all control measures are in place and observed - Measures will need to Monitored, Managed and Controlled.
1 to 2	Low	Little or no risk - Measures will need to Monitored and Controlled.
